MAKE YOUR BELL 505 MAGnificent

Mecaer Aviation Group (MAG) has designed the next line of MAGnificent VIP interiors for Bell and the Bell 505. Also available for the Bell 429 and 525, the corporate / VIP upgrade is offered for Bell's Light Single Engine helicopter.

Upgrades to your standard or premium interior include restyled pilot and passenger seats, new carpet, interior panels, headliner with PSU (Passenger Service Unit), USB charging ports and additional storage.

A MAGnificent Statement

MAG can restyle your aircraft's existing premium seats to a proprietary appearance known as MAGnificent. Matching carpet is installed in the crew and passenger areas, complimenting the entire cabin. Our STC is 100% Italian made while installations can take place at our facility in Philadelphia, PA, Bell Canada in Mirabel, or a maintenance facility of your choice.

Customizable

In addition to the baseline configuration and moods, many options are available for the MAGnificent Bell 505. Choose from a wide selection of aviation leather to create a one of a kind aircraft.

Additional cabinet storage, cup holders and pockets are available for crew and passengers

Fashion Forward Style

All materials can be selected to your preference and style or chosen from MAG Design Studio's preselected moods.

"Inspired by Italian designers and created for operators all over the world, sophisticated style meets functionality in a Light Single Engine helicopter. We call it MAGnificent; you will call it a whole new way to fly."
