Contemporary Luxury

Step on board the AW109 and be greeted by luxury and a sophisticated dynamic cabin. The feeling of comfort is created by the combination of the finest materials and details for every passenger. Stylish and sporty, this interior is manufactured to the highest standards with no compromises in terms of quality and materials. Passengers can manage the cabin climate & lighting, music and intercom. An optional entertainment system is available.

Manufacturing Excellence

Through in-depth knowledge of carbon-fiber material manufacturing, Mecaer is able to deliver the lightest and most durable VIP cabin in its class. Every AW109 family cabin component is pretested on in-house dedicated rigs for top-quality installation.

Fly in Style

Our interior designs are always up to date and modern. The MAG Design Studio, an in-house style center, takes care of the client's needs and preferences.

Italian Craftsmanship

Leathers and materials are from the best Italian and international suppliers. Installation is performed by only the most experienced artisans in the world. Our team will meticulously manage the entire process for you and your helicopter.

Fully customizable

Clients are able to create an unlimited combination of cabin environments with the best management of space allowed. A wide array of bespoke materials and styling solutions are available to create a unique cabin for every client. The MAG engineering department will take care of the necessary EASA or FAA certifications.
