Enjoy Your Flight

MAG proprietary In-Flight Entertainment System and Cabin Management System (IFEEL) can be easily customized on both the system functionalities and the user graphic interface, to meet all needs.

Designed Around You

All cabin equipment and seats, as well as the cabin layout and design, are conceived to meet ergonomic principles. Our partner in Ergonomic Advanced Studies is the LEAS ergonomic department of the University Federico II of Naples.

VIP Interior

The new VIP concept for the AW169 interior offers Customers a new cabin style where comfort and careful study of lighting fixtures harmonize with quality details and precious materials. MAG has developed a variety of alternative layouts, accommodating up to 7 passengers.
